Dear Mr Daugherty,

I am writing concerning your recent undated letter sent to the University's Chancellor, Sandi Toksvig, and received by the University. As the role of the Chancellor is an honorary one, and they would therefore not deal with such matters, this was passed to me by the Vice-Chancellor to respond to you on his behalf.

Having looked at the issues raised in your letter, and the supplementary information you have provided, it appears you have already received correspondence from the University regarding this matter, from the Research Degrees Officer in 2003, the Pro-Vice Chancellor in 2005, and the University's Clerk to the Board of Governors in 2006.

As the University has already responded to you on this matter and has previously made its position clear, I am unable to add anything further to previous correspondence.

Yours sincerely

Adrian Parry
Director of Corporate Governance
